April 15, 2024

To Whom It May Concern:

I am writing to invite you and your organization to participate in Hudson County's Project SEARCH Reverse Job Fair. Project SEARCH is a one-year, business-led, unpaid internship program for young adults with disabilities that takes place entirely at a host business site. It provides interns who want to work a chance to explore careers and develop transferable job skills. The goal for each intern at the end of the program is to gain integrated, competitive employment.

This year's event will take place on Tuesday, June 4, 2024, at New Jersey City University (Gilligan Student Union Building) from 10:00 a.m. – 1:00 p.m.

Unlike a traditional job fair, the roles are reversed. Potential employees are stationed at tables where they will display their work experiences and interests in a more relaxed and comfortable environment than a traditional job fair.

As a potential employer, you will be able to meet enthusiastic and experienced potential employees in action, review their resumes, review references from current supervisors and set up an interview all in one place. In addition, a representative from the NJ Department of Labor will be onsite to provide information about tax incentives related to hiring individuals with disabilities and guidance on disability business etiquette will be provided.

This is a great opportunity to view applicants for your entry level and/or high turnover positions as each of these interns have a proven track record of commitment and enthusiasm for their work.

For more information, please contact the Hudson County Office of Inclusion and Accessibility (OIA) at 201-324-6225.

Sincerely,

Craig Guy

County Executive
